Format Wd My Passport Ultra For Mac

Most WD Drives come formatted in the NTFS (Windows) or HFS+ (macOS) format For a hard drive to be able to be read from and written to on both a Windows and macOS computer, it must be formatted to exFAT format.. END A Western Digital external hard drive can be used on both Windows and macOS This is useful if a drive is being used under both to move files between the two environments.. This answer explains how to format a drive in the exFAT or FAT32 file system This allows the drive to be used on both Windows and macOS.
